FROM THE HON. THOMAS B. FLORENCE.

WASHINGTON, January I, 1884.

Gentlemen:—Having stated it verbelly to you, I hav no hesitation in writing the fact, that I experienced marked benefit from your Hoofland's German Bitter: During a long and tedious session of Gengreas, pressin and onerous duties nearly prostrated me. A kind frien suggested the use of the preparation I have named took his advice, and the result was improvement took his advice, and the result was improvement of health, renewed energy, and that particular solled I so much needed and obtained. Others may be similarly advantaged, if they degine to be.

Truly your friend, THOMAS B. FLORENCE.

From Bev. W. D. Seigfried, Pastor of Twelfth] Bap t Church.

PHILADELPHIA, December 26, 1863.—Measrs. Jones & Evans—Gentilemen:—I have recently been labering under the distressing effects of indigestion, accompanie by a prostration of the nervous system. Numerou remedies were recommended by friends and some o them tested, but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters nduced me also to try them. I must confess that I had an aversion to patent medicines, from the "thousan and one" quack "Bitters," whose only aim seems to be palm off sweetened and drugged liquor upon the community, in a sly way; and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation I took it with happy effect. Its action not only upon the stomach but upon the nervous system, was promp and gratifying. I feel that I have derived great and po manent benefit from the use of a few bottles. Very repetituity yours.

THE YOUAG AND RIBING GENERATION, THE regetative powers of life are strong, but in a few years how often the pallid hus, the lack-lustre eye and smacdated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing innance is checking the development of the body. Condemption is talked Jr., and perhaps the youth is removed om the school and sent into the country. This is one of the worst movements. Removed from ordinary distributions of the ever-changing scenes of the city, the owers of the body too much enfeebled to give zest to althful and rural exercise, thoughts are turned inward upon themselves.

If the patient be a female, the approach of the menses a coked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the cirulation, and visiting the cheek with the bloom of health. Alas! Increase of appetite has grown by what it fed on, and the energies of the system are prostrated, and the whole conomy is deranged.
